WINE LIST

CHAMPAGNE & SPARKLING WINE

The sparkling wines are all from Italy. Prosecco is the region in the north east of Italy that produces their finest sparkling wines. Mosketto is lower alcohol and lightly sparkling. Conti Neri Rose is a blend of Raboso and Glera grapes and a lovely light refreshing fizz. Asti is a lightly sparkling sweet wine named after the town it comes from.

Champagne can only come from the Champagne region of France, about an hour north-east of Paris. The vineyards are planted with Chardonnay, Pinot Noir and Pinot Meunier, and cover an area of over 30,000 hectares. The famous producers are based in and around the towns of Reims and Epernay. The second fermentation takes place in the bottle and this produces the bubbles.

CRISP, LIGHT & FRESH WHITES

These crisp fresh whites are fermented in stainless steel and have not seen any oak. They have subtle elegant flavours and zesty mouth-tingling acidity. They can all be enjoyed on their own as an aperitif or with fish, shellfish, salads and poultry.

We particularly recommend the Jubilum Pinot Grigio Zibibbo blend from Sicily, currently producing some of Italy's best value wines, and the Riva Leone Gavi from northern Italy, which has lovely floral aromatics and a fuller flavour.

AROMATIC & FRUITIER WHITES

These wines have a bit more to them - more intense aromas, more overt fruitiness. Sauvignon Blanc from the New World, Riesling and Chardonnay give stronger flavours and a more rounded texture. They mainly come from countries with warmer climates where the grapes get riper before picking. They are best enjoyed with food but have the balance and elegance to be enjoyed on their own too.

REFRESHING ROSÉ

Rosé wines have exploded in popularity over the last few years because the quality of the winemaking has improved so much. Of course they are perfect to drink outside in the sunshine, but don't forget they can also go very well with food, especially with salads, cold dishes and puddings, or if you don't drink red wine but want something with a bit more flavour and structure than a white wine.

SOFT MEDIUM BODIED REDS

These wines have a lighter weight and less body to them, partly because they are from the northern hemisphere where there is less sunshine. The alcohol levels are moderate, not too high, and they have a soft, smooth finish to them rather than too much structure and tannin. They can be enjoyed on their own or with pasta, chicken and lightly flavoured meat dishes.

RICH FULLER BODIED REDS
